Hunter's Achievements:

Hunter has been the easiest dog to train for field tests that I have ever worked with. He is a natural at everything from pointing, to backing, to retrieving, and water work. He is also a wonderful companion and highly intelligent. Hunter finished his show championship at the Nutmeg Specialty under the respected German judge Barbara Heller. He has been bred several times to Top 5 field bitches to improve their structure and style on point, without compromising field ability. He has also been bred to show lines to improve hunting ability without compromising structure. In twelve litters, temperaments have been very sound and health issues very minor. At 11.5 years of age he has just produced a litter from live cover.
